To Whom It May Concern

ALERT is an NGO that trains people in First Aid and life saving techniques in real life situations. ALERT is driven by a few individuals who are passionate about their cause with a high level of dedication and determination.

As a service organization our Rotary Club joined hands with them and conducted two Projects aimed at Auto Drivers of Chennai, where we trained 128 drivers. The training was highly effective and the drivers left with a sense of satisfaction.

What impressed us most was the effective and efficient way in which the program was conducted. The way in which the Auto drivers were identified, program content, certification, Medical kits and presentation convinced me that ALERT is a worthy partner capable of joining hands with service minded organizations like our Rotary Club.

We will be more than happy to join them in service in future and I would happily recommend them to others in the path of service to community.

A handwritten signature in black ink, reading 'V. Suchithra Sagar', is displayed on a light-colored rectangular background.
